

LABORATORY BULLETIN

2007 - October - 31

Bulletin # 2007- 14

To: Clients of ProvLab and the Division of Medical Microbiology Laboratory, UAH.

Re: Laboratory Information System Power Interruption - Impact

PLEASE POST OR DISTRIBUTE WIDELY AS APPROPRIATE

A temporary unscheduled power outage to our Laboratory Information System occurred on Tuesday, October 30, 2007 at 1318 hours. Power has since been restored and regular reporting, including the distribution of reports backlogged during the outage period has resumed. Please be advised that:

- Laboratory technical staff have phoned and will continue to phone critical results as per standard operating procedure, but there may potentially be a 48 hour delay in report delivery.
- There may be a duplication of one print run, resulting in duplicate reports for this print run only.

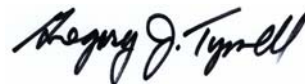

PLEASE NOTE:

This notice does not apply to reports generated by Divisions other than Microbiology in the Department of Laboratory Medicine and Pathology at the University of Alberta Hospital (UAH).

We sincerely thank you for your patience and consideration during this disruption to our service.

Dr. Jutta Preiksaitis
Medical Director
ProvLab

Dr. Gregory J. Tyrrell
Interim Divisional Director
Division of Medical Microbiology
Laboratory, UAH.
